

Professional Development

The professional development program at Glendale Community College is designed to respond to the changing needs of all employees. Appropriate activities are offered to promote positive and productive interaction among all staff members with the ultimate purpose of improving instructional delivery services and enhancing the educational experiences of all students.

The program offers in-service activities that are integrated with long-range campus goals and objectives, including instruction, research, publication, team building, strategic planning, governance, campus operations, outreach programs, consultants, lecturers, conferences, seminars, and retreats. To preserve the continuity of these events and programs, staff development funds may be used to provide food as appropriate.
